

DIVAM DUBEY

Software Engineer | Backend Developer

Godda, Jharkhand | divamdubey@gmail.com | [linkedin.com/in/divam-dubey](https://www.linkedin.com/in/divam-dubey) | github.com/Divam23
Portfolio: <https://www.divamdubey.app>

SUMMARY

Backend-focused software engineer with experience building scalable APIs, distributed job processing systems, and full-stack applications using Node.js, Express, MongoDB, Firebase, and Flutter. Interested in backend engineering, distributed systems, and production-grade software development.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Dart, Java
Backend: Node.js, Express.js, REST APIs, BullMQ, Redis
Frontend & Mobile: Flutter, React, HTML, CSS, Tailwind CSS, Next.js
Databases: MongoDB, MySQL (Basic), Firestore
Tools & Technologies: Git, Docker, Firebase, Postman, VS Code

PROJECTS

ClustraNotes (In Progress) **May 2026 - Present**
Flutter, Firebase, MongoDB, Node.js, Docker

- Developing a peer-to-peer note sharing platform using Flutter and Firebase.
- Building a hybrid Firebase and MongoDB architecture.
- Implementing note upload, moderation, and engagement features.
- Designing scalable APIs and user analytics systems.

Distibuted Job Queue System **Jan 2026 - Feb 2026**
Node.js, Redis, BullMQ, Docker

- Built asynchronous job processing architecture.
- Implemented retries, exponential backoff, and idempotent execution.
- Designed horizontally scalable workers.
- Added monitoring APIs and queue metrics.

EDUCATION

Bachelor in Technology, CSE **August 2022 - April 2026**
GIET University, Gunupur, Odisha

- CGPA- 6.81

ADDITIONAL INFORMATION

Languages: English, Hindi.
Certifications: Flipkart Grid 5.0 – Level 1.1 Qualified (2024) – National-level software development and problem-solving competition
